Welcome to Loveland's oldest drive through. Back in the 1940's cherry pies were sold to tourists on their way to Estes Park. The white building behind was built as an ice house. It is at least one hundred years old. The thick walls are insulated with sawdust. In the winter, ice was harvested from the nearby Thompson River and stored for use during the summer. Thankfully we now have refrigeration, and the sturdy building is utilized as storage.

We want to thank you for patronizing our family owned business. We realize that there are several other coffee shops around. We don't aim to compete with the big guys, and we sincerely hope other locally owned businesses thrive. We make every attempt to buy as many products locally for our business. After all, our friends and neighbors are the ones who support us. Your feedback is always welcomed. Please offer suggestions on how we can better serve you.

Stop on by for some refreshment, and feel free to linger at a picnic table under the big trees.

Sincerely, Christine, Brandi, Alex and Rhianna.

p.s. Our coffee is very, very good!
